

## Tilt Angle Sensor

Please answer the following questions as completely as possible:

1. What is the measuring system ?

- Inductive       Magnetic       MEMS

2. What is tilt recording ?

- Single axis       Dual axis

3. What is tilt angle ?

- |             |                                     |           |                                     |
|-------------|-------------------------------------|-----------|-------------------------------------|
| Single axis | <input type="checkbox"/> 0°C        | Dual axis | <input type="checkbox"/> ± 45°C     |
|             | <input type="checkbox"/> 90°C       |           | <input type="checkbox"/> ± 60°C     |
|             | <input type="checkbox"/> 360°C      |           | <input type="checkbox"/> ± 90°C     |
|             | <input type="checkbox"/> Other..... |           | <input type="checkbox"/> Other..... |

4. What is the temperature range ?

approx min.  °C      approx max.  °C

5. What is the IP protection rating ?

6. What is the connection type?

- Connector       Cable

7. What is the electrical output?

- 0-10V       4-20mA       0-20mA

8. What is the Bus output type?

- CANopen       CANopen-safety

9. What is the angular accuracy?

10. What is the supply voltage?

Tilt Angle Sensor
